

I am writing you to voice my concern over possibly losing my radio station KLOVE heard on 100.7 in my area. KLOVE is a wonderful station, full of uplifting music, news and without alot of commercial interruption. KLOVE really helps me through my day, gives me strength, keeps my mind focused on positive things. I know I am not alone in listening to this station. Many in our community would be devastated without access to this wonderful station. With so many stations playing rap and other types of music that is degrading to women, and encourages many different types of crime, KLOVE is a much needed source. My children grew up listening to the type of music that KLOVE provides and it has helped them to form positive listening habits and to not just listen to the beat, and rhythm but also the lyrics. Listening to KLOVE when I am driving on a very busy day, helps keep my mind focused on patience, instead of getting ticked off at the driver in front of me. It has a soothing effect, where as if i were listening to something with more violent lyrics, i believe i would be prone to road rage at times. KLOVE is a much needed station. Please do not allow LPFM stations to take priority over current FM translator service. Thank you very much for your time. Barb Kineke
